Introduction to Husserl's Phenomenology Jan Patočka

Patočka's celebrated Introduction, here made available in English for the first time, is not an introduction in the ordinary sense of the term. Patočka ranges over the whole of Husserl's output, from *The Philosophy of Arithmetic* to *The Crisis of the European Sciences*, and traces the evolution of all the central issues of Husserlian phenomenology - intentionality, categorial intuition, temporality, the subject-body; the concrete a priori, and transcendental subjectivity. But rather than attempting to give a tour of Husserl's workshop, Patočka is himself hard at work on Husserl's problems.
