Designed to familiarize candidates with the question types and topics featured in the CISA exam, the *CISA Review Questions, Answers & Explanations Manual 2013* consists of 950 multiple-choice study questions that have previously appeared in the *CISA Review Questions, Answers & Explanations Manual 2011* and the *2011 and 2012 Supplements*. Many questions have been revised or completely rewritten to be more representative of the CISA exam question format, and/or to provide further clarity or explanation of the correct answer. These questions are not actual exam items, but are intended to provide CISA candidates with an understanding of the type and structure of questions and content that have previously appeared on the exam. This publication is ideal to use in conjunction with the:

- *CISA Review Manual 2013*
- CISA Review Questions, Answers & Explanations Manual 2013 Supplement

To assist candidates in maximizing study efforts, questions are presented in the following two ways:

- Sorted by job practice area. Questions, answers and explanations are sorted by the CISA job practice areas. This allows the CISA candidate to refer to questions that focus on a particular area as well as to evaluate comprehension of the topics covered within each practice area.
- Scrambled as a sample 200 question exam--200 of the 950 questions included in the manual are selected to represent a full-length CISA exam, with questions chosen in the same percentages as the current CISA job practice areas. Candidates are urged to use this sample test to simulate an actual exam, but also to determine their strengths and weaknesses in order to identify areas that require further study. Answer sheets and an answer/reference key for this sample exam are also included. All sample test questions have been cross-referenced to the questions sorted by practice area, making it convenient for the user to refer back to the explanations of the correct answers.
