The Reformation

Patrick Collinson

The Reformation Patrick Collinson

A short but powerful study of one of the great watersheds of European history. Although for generations the Reformation was regarded as a major turning point in European history, in recent years its significance has been downgraded. But in this book Professor Collinson sets out to restore a sense of the Reformation as a momentous historical event. He brilliantly explores the complexities and corruption of the late-medieval Catholic Church - and the Europe-wide reform movement which produced Lutherans, Calvinists, Huguenots, Presbyterians and the Church of England, and which profoundly shaped the identity of the emerging nation-states of Europe.
