Black Gene Lies Dr. JD Wallach

Black Gene Lies: Slave Quarter Cures, is a landmark expose that shows that the diseases of the Black population in America, which the medical community attributes to a terrible "Black gene," are in fact caused by regional and cultural eating habits and nutritional deficiencies of trace elements that are easily, safely and economically overcome by the use of simple nutritional supplement program and herbal remedies. There are many diseases that appear in the Black community at a greater rate than in the white community (i.e.- hypertension, type II diabetes, arthritis, osteoporosis, cancer, cardiovascular disease, obesity, etc.), however the underlying causes are simply cultural dietary choices and nutritional deficiencies and they are absolutely not genetic.
