Religion in the Post-Yugoslav Context

Religion in the Post-Yugoslav Context brings together a diverse group of scholars, each of them specializing in the role of religion in one of the Yugoslav successor states. In addition to providing the readership with the understanding of both the general context (religion during the disintegration of the Yugoslav state) as well as more specific aspects (individual post-Yugoslav states), this rich collection complements the existing research in the fields of religious studies and political science. It represents an important source for scholars and students interested in the post-Yugoslav dynamic. Moreover, this kind of analysis is of major relevance for state and non-state actors involved in promotion of religious tolerance.
