Philosophy: The Quest for Truth

Praised for its unique combination of accessibility and comprehensiveness, *Philosophy: The Quest for Truth* is one of the best-selling textbooks for the introduction to philosophy course. Now in its seventh edition, this acclaimed text provides an excellent selection of classical and contemporary readings on nineteen key problems in philosophy. Louis P. Pojman and new coeditor Lewis Vaughn have carefully organized the essays in each section so that they present **pro/con dialogues** that allow students to compare and contrast the philosophers' positions. Topics covered include the nature of philosophy, logic, the existence of God, immortality, knowledge, the mind-body question, personal identity, free will and determinism, ethics, political philosophy, the meaning of life, abortion, capital punishment, animal rights, and affirmative action. Pojman and Vaughn provide substantial introductions to each major section. In addition, each of the eighty-four readings is accompanied by study questions, end-of-reading reflective questions, and an individual introduction featuring a biographical sketch of the philosopher. Short bibliographies following each major section, a detailed glossary of key terms, and **an appendix--on reading and writing philosophy papers--** further enhance the text's pedagogical value.
