This is one of the best books I have ever read! The writing is typical Scute, excellent! An American geologist drilling for oil in the outback of Australia meets Molly and is captivated by her. Molly's large multiracial family adds color and humor, as well as a great deal of common sense. Molly is intrigued by the American's camp equipment and all things American. Life in the "Lunatic" is very different from Stan's small town in Oregon but he comes to accept a different way of life. This book is a window into the past in outback Australia and small town America. I strongly recommend this wonderful book. (Amazon customer)
