**The Prepper's Guide to Surviving the End of the World, as We Know It: Gear, Skills, and Related Know-How** M.D. Creekmore

**A practical low-cost prepping blueprint that will teach you how to survive the end of the world, as we know it, with easy to follow step-by-step instructions to guide you every step of the way.**

The world that we live in can be thrown into chaos at any moment by natural disaster, economic collapse, electromagnetic pulse, viral pandemic, or any number of other disasters... Even the federal government suggests everyone have a “survival kit”, however, they only recommend a three-day to a one-week supply of essential items, which is not sufficient to protect you and your family in the aftermath of a long-term disaster that could last for months, years or even decades.

This book teaches you how to plan for and survive even if things never return to normal, including:

- **Practical water collection, storage and purification**
- **Food storage, gardening, and foraging**
- **First aid and medical treatments including alternative medicine**
- **Techniques for securing and defending your home from looters**
- **Setting up a survival workshop**
- **Alternative power**
- **And much more**
