Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)

Self-organizing maps (SOMs) were developed by Teuvo Kohonen in the early eighties. Since then more than 10,000 works have been based on SOMs. SOMs are unsupervised neural networks useful for clustering and visualization purposes. Many SOM applications have been developed in engineering and science, and other fields.

This book contains refereed papers presented at the 9th Workshop on Self-Organizing Maps (WSOM 2012) held at the Universidad de Chile, Santiago, Chile, on December 12-14, 2012. The workshop brought together researchers and practitioners in the field of self-organizing systems. Among the book chapters there are excellent examples of the use of SOMs in agriculture, computer science, data visualization, health systems, economics, engineering, social sciences, text and image analysis, and time series analysis. Other chapters present the latest theoretical work on SOMs as well as Learning Vector Quantization (LVQ) methods.

From reader reviews:

Valerie Gray:

The book *Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)* give you a sense of feeling enjoy for your spare time. You need to use to make your capable far more increase. Book can to get your best friend when you getting pressure or having big problem using your subject. If you can make examining a book *Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)* being your habit, you can get far more advantages, like add your own personal capable, increase your knowledge about a few or all subjects. You are able to know everything if you like open and read a e-book *Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)*. Kinds of book are several. It means that, science reserve or encyclopedia or other folks. So , how do you think about this book?

Ben Papenfuss:

Nowadays reading books be than want or need but also turn into a life style. This reading practice give you lot of advantages. The advantages you got of course the knowledge even the information inside the book that improve your knowledge and information. The information you get based on what kind of book you read, if you want attract knowledge just go with education books but if you want really feel happy read one using theme for entertaining such as comic or novel. The particular *Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)* is kind of book which is giving the reader unforeseen experience.

Hattie Booth:

Reading a reserve can be one of a lot of pastime that everyone in the world enjoys. Do you like reading book thus. There are a lot of reasons why people like it. First reading a book will give you a lot of new facts. When you read a book you will get new information mainly because book is one of many ways to share the information or perhaps their idea. Second, reading a book will make anyone more imaginative. When you looking at a book especially fictional works book the author will bring that you imagine the story how the figures do it anything. Third, you can share your knowledge to some others. When you read this *Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing)*, you may tells your family, friends in addition to soon about yours reserve. Your knowledge can inspire average, make them reading a reserve.

Rene Moore:

Do you like reading a e-book? Confuse to looking for your selected book? Or your book was rare? Why so

many problem for the book? But almost any people feel that they enjoy with regard to reading. Some people likes reading through, not only science book but novel and Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing) or others sources were given know-how for you. After you know how the fantastic a book, you feel would like to read more and more. Science guide was created for teacher or even students especially. Those ebooks are helping them to add their knowledge. In some other case, beside science publication, any other book likes Advances in Self-Organizing Maps: 9th International Workshop, WSOM 2012 Santiago, Chile, December 12-14, 2012 Proceedings (Advances in Intelligent Systems and Computing) to make your spare time far more colorful. Many types of book like here.
