Barcode Kingpin: The emerging science of automated, algorithmic, hedge fund trading Mr Justin Fisher

This book looks in depth at the world of hedge fund trading and attempts to instruct the reader in how to create their own automated swing trading system as used by banks and hedge funds the world over. To this end it uses an algorithm as mentioned on the back cover of the title to create a small program for use with Ninjatrade in order to automate the process of buying and selling. It's therefore basically an instruction manual on how to create your own algorithmic swing trading system from scratch to work with Windows on a standard desktop pc for less than 100 dollars.
