"Stop talking about the South. As long as you (are) south of the Canadian border, you (are in the) South." - Malcom X

Republicans in the House of Representatives aren't just Southern "redneck", neo-Confederates out to secede from the Union, again, but are in a race against the rest of America to take over all branches of our government in a virtual coup d'état (even though many of them would prefer an armed insurrection).

In this irreverent yet insightful look into the behaviour, motivations and wrong-headedness of Redneck Republicans you will understand why a large number of our neighbors seem set on driving America to the brink of destruction, if not all out Civil War.

This book fully explores:

- * How "redneck republicans" think and act and how you can spot one by their NASCAR-inspired driving habits;
- * How racism tops the list of their behaviors and why they're still mad that a "negro" is in the White House;
- * Why "redneck republicans" deny reality (science) while clinging to superstition (religion) and why that's dangerous;
- * Whether there is a genetic (scientific) reason that makes them behave the way they do or whether we're all susceptible;
- * How "redneck" has permeated every corner of American Society and is destroying our Country from the inside-out.

The "rednecks" now hold a great deal of power over America, but that power appears to be hidden in plain sight to most Americans, especially Progressives. Real Americans need to open their eyes to the "domestic enemy" within our borders and be able to recognize these people in Public life in order to develop a strategy to defeat them. When the "rednecks" take full control of all our lives, destroying the America they really hate and permanently establishing the Redneck Republic it will be too late.
