Shadow Moon: A Science Fiction Fantasy: Cypher Theorem Series Book 2 Mark Brandon Powell
Vernon is fresh out of the academy getting ready to face his most challenging test yet. His wedding, and honeymoon. He doesn't know what lies ahead, but knows he is about to get everything he has ever wanted, and the only thing that can take that away is himself.

Vargas Mitchel is on a secret mission to get information on a hidden city tucked away in the sky. He does not want his friend Vernon pulled away from his honeymoon, but everything is stacked against him. A murder happens on the ship, and Vargas has to investigate it, collect information for his mission, and keep everyone aboard unaware of both. He has his work cut out for him.

Are Vernon's dreams really coming true?

Can Vargas keep everything together and stay in the shadows?

Come and sail along with them to see for yourself.

Author Insight:

Q: What's so special about the Cypher Theorem Series?

A: It's a coming of age tale that blends science fiction type technology and fantasy style magic together in a way that I have always wanted to read. Vernon (the main character) thinks he knows what he wants, and tries to go for it in the best way that he knows how. Which gets him into trouble more than he would like. The story itself takes place on a far off planet after humans have long left Earth.

Q: What order should I read the books in?

A: The Zero Class, Shadow Moon, then Dragon Fire. There are more books coming, but their titles haven't been announced just yet.

Q: Why should readers give this series a shot?

A: It's an action packed ride that will keep the pages turning. There's fighting, spell casting, and some mystery thrown in for good measure. If you like Science Fiction, Fantasy or Urban Fantasy, you'll love the books and story within.

Q: Is there anything that you want readers to know?

A: Yes, you are awesome. If you are reading this, then I'm talking to you. Readers like you are why I do what I do, and writers on a whole don't thank the reader enough. So let me say, THANK YOU, and above all *Happy Reading!*
