Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials)

Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials)

During their service life, most biomaterials and medical implants are vulnerable to tribological damage. In addition, the environments in which they are placed are often corrosive. The combination of triology, corrosion and the biological environment has been named 'bio-tribocorrosion'. Understanding this complex phenomenon is critical to improving the design and service life of medical implants. This important book reviews recent key research in this area.

After an introduction to the topography of bio-tribocorrosion, Part one discusses different types of tribocorrosion including fatigue-corrosion, fretting-corrosion, wear-corrosion and abrasion-corrosion. The book also discusses the prediction of wear in medical devices. Part two looks at biological effects on tribocorrosion processes, including how proteins interact with material surfaces and the evolution of surface changes due to bio-tribocorrosion resulting from biofilms and passive films. Part three reviews the issue of bio-tribocorrosion in clinical practice, including dental applications and joint replacement as well the use of coatings and test methods for bio-tribocorrosion.

With its international team of contributors, Bio-tribocorrosion in biomaterials and medical implants is a standard reference for those researching and developing medical devices as well as clinicians in such areas as dentistry and orthopaedic surgery.

- Reviews recent research in bio-tribocorrosion and its role in improving the design and service life of medical implants
- Discusses types of bio-tribocorrosion including fatigue and wear corrosion
- Examines biological effects on bio-tribocorrosion processes including interaction of proteins with metal surfaces

From reader reviews:

Alan Fan:

Now a day individuals who Living in the era just where everything reachable by match the internet and the resources inside can be true or not call for people to be aware of each details they get. How people have to be smart in obtaining any information nowadays? Of course the correct answer is reading a book. Studying a book can help men and women out of this uncertainty Information mainly this Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) book because book offers you rich facts and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it everbody knows.

Larry Jones:

This Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) are usually reliable for you who want to be considered a successful person, why. The key reason why of this Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) can be one of the great books you must have is usually giving you more than just simple examining food but feed you actually with information that perhaps will shock your preceding knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions both in e-book and printed versions. Beside that this Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) forcing you to have an enormous of experience including rich vocabulary, giving you trial run of critical thinking that we know it useful in your day pastime. So , let's have it and enjoy reading.

Mamie Esters:

This book untitled Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) to be one of several books this best seller in this year, here is because when you read this book you can get a lot of benefit on it. You will easily to buy this particular book in the book retail store or you can order it by means of online. The publisher with this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Smartphone. So there is no reason to you to past this e-book from your list.

Elizabeth Fischer:

As we know that book is vital thing to add our information for everything. By a reserve we can know everything we want. A book is a group of written, printed, illustrated or maybe blank sheet. Every year was exactly added. This publication Bio-Tribocorrosion in Biomaterials and Medical Implants (Woodhead Publishing Series in Biomaterials) was filled concerning science. Spend your spare time to add your knowledge about your research competence. Some people has different feel when they reading some sort of book. If you know how big good thing about a book, you can experience enjoy to read a reserve. In the

modern era like right now, many ways to get book you wanted.
