Leaders face numerous critical crossroads in their careers, moments that can provide extraordinary learning and growth opportunities or ensnare them and prevent further development. The good thing about these passages is that they're predictable, and with proper preparation, leaders not only can survive them to become stronger but can use these experiences to enhance their leadership, compassion, and effectiveness. This book lays out thirteen specific "leadership passages" based on research, interviews, and coaching of senior executives in such well-known companies as Johnson & Johnson, Novartis, Intel, GE, and Bank of America. For each passage, the authors describe what to expect, how the passage constitutes a choice point, and what effective leaders do to navigate and grow from the challenge. Some of the passages include: moving into a leadership role for the first time, dealing with significant failure for which you are responsible, derailing/losing your job, being acquired/merging, losing faith in the system, understanding the importance of children, family and friends, and personal upheavals such as divorce, illness, and death. The authors provide a wealth of practical tools and techniques to improve your leadership, along with real-life examples from recognizable leaders and breakthrough ways in which companies can use the concept of leadership passages to grow talent.
