Trade and Treachery: Western Europe 1494-1610 (Field of Glory Renaissance) Richard Bodley Scott
While the Renaissance was a time of innovation and inspiration in art, literature and science, so too was it a period of military progress. From the rise of gunpowder as a battlefield-dominating weapon to the tactical genius of Machiavelli, the Italian Wars were the first step on this journey. With detailed army lists, historical overviews, maps and artwork, Trade and Treachery provides aspiring condottieri with everything they need to take over the armies of the Italian City States, and of the European powers of the 16th century, and lead them to glory.
