Although Emmanuel Levinas is widely respected as one of the classic thinkers of our century, the debate about his place within Continental philosophy continues. In *Beyond: The Philosophy of Emmanuel Levinas*, Adriaan Theodoor Peperzak shows Levinas's thought to be a persistent attempt to point beyond the borders of an economy where orderly interests and ways of reasoning make us feel at home--beyond the world of needs, beyond the self, beyond politics and administration, beyond logic and ontology, even beyond freedom and autonomy.

Peperzak's examination begins with a general overview of Levinas's life and thought, and shows how issues of ethics, politics, and religion are intertwined in Levinas's philosophy. Peperzak also discusses the development of Levinas's relations with Husserl and Heidegger, demonstrating thematically the evolution of both Levinas's anti-Heideggerian view of technology and his critical attitude toward nature.
