## **Favorite Experiments for Physics and Physical Science** John D. Mays

"Favorite Experiments" received recommendation by the National Science Teachers Association (NSTA). This book contains 11 experiments and 65 demonstrations for high school physics and introductory chemistry. Each experiment is explained in detail with comments about objectives, safety, measurement practices, apparatus and pre-lab discussion points. Also, each experiment contains color photo illustrations and a photo-copyable student handout. This book is designed for science programs that are budget-conscious. Each experiment can be conducted with a minimum of expense using standard science equipment and household items. The book also describes how high-tech enhancements can be added later on when funds become available. High quality paperback, sewn-binding with four-color offset printing on quality matte paper.
